

Product Information: Agritech HTF

Description

Agritech HTF is a universal hydraulic and transmission fluid formulated using high quality, virgin, mineral base oils and specialised additives that are tailored for use in agricultural, plant and material handling equipment.

The product provides excellent anti-wear and extreme pressure protection, as well as ensuring the correct lubrication of oil immersed brakes to eliminate “squawk and chatter” aiding in prolonging the lifespan of frictional materials and other components.

The product also offers excellent antifoam performance and a strong resistance to oxidation, rust and corrosion.

Applications

Agritech HTF is recommended for use in applications where a lubricant of this type and quality is required. These include: powershift transmissions, mechanical transmissions, hydrostatic drives, torque converters, final drives, PTO boxes, brake/clutch systems, hydraulic units, reduction hubs, power steering etc.

Performance Features

- Meets latest OEM requirements
- Eliminates brake squawk and chatter
- Improved gear wear protection
- Stays in grade under all conditions
- Protects against foaming, oxidation and rust and corrosion.

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	g/ml	0.882
Kinematic Viscosity @ 40°C	cSt	71.1
Kinematic Viscosity @ 100°C	cSt	10.9
Viscosity Index		143
Flashpoint (Closed)	°C	220
Pour Point	°C	-42
